BREAKING NEWS

DEAR PARENTS/GUARDIANS AND OUR LEARNERS

Welcome back to Term 4! We extend a warm welcome to all our parents and learners as we begin the final stretch of the academic year with great energy and enthusiasm. The final term promises to be an exciting one filled with opportunities, achievements, and meaningful events.

Our heartfelt congratulations go out to the Grade 12 learners who were honoured during the recent Valedictory Service, marking an important milestone in their educational journey, and we are immensely proud of their growth, perseverance, and commitment. We also celebrated outstanding achievements during our Annual Honours Evening, where learners and teachers were recognised for their dedication and excellence. To all our parents, we sincerely thank you for your continuous support and encouragement. Success is a shared effort that thrives through partnership between home and school.

Our Grade 12 learners once again dominated the Boitshoko Circuit results, securing 6 out of the top 10 positions. The circuit's top achiever remains one of our Fields learners, Kebone Chirwa, and she was honoured during a circuit matric gala dinner hosted by Boitshoko Circuit Manager, Mrs AS Rasememola, in recognition of her commitment to encouraging and promoting quality results and education in Boitshoko Circuit.

As the Grade 12 learners prepare for their final NSC examinations, we wish them all the very best. Stay focused, confident, and determined, your hard work will undoubtedly pay off. We also encourage our Grade 10 and 11 parents to actively support their children in preparing thoroughly for the upcoming final examinations, scheduled to begin on 28 October 2025. Consistent effort, good study habits, and emotional support will make all the difference, as the outcomes will determine their promotion to the next grade. We are backing the class of 2025 and keeping all our matriculants in our thoughts and prayers.

A huge congratulations to our top achievers in each grade for attaining 80% and above, your dedication and discipline have made the school proud. Please note that the school will acknowledge the achievements of learners who obtain 80% and above while continuing to provide full academic and emotional support to all learners striving for improvement.

We are proud to share that our teachers and learners have once again shown their generosity and community spirit by supporting the SANBS blood drive through their kind donations. Your willingness to make a difference truly reflects the caring values of our school.

We extend our warmest wishes to all our Hindu families to celebrate Diwali. May the Festival of Lights bring joy, peace, and prosperity to your homes.

Let us work together to make Term 4 a period of dedication to your children's final exam preparations, pride in their academic achievements, and excellence in their results, as we aim to finish the year strongly and achieve the outcomes we all desire for our children

With much love and appreciation,
Mr. I. Shabbir

YOU GOT THIS! ✖ YOU GOT THIS! ✖ YOU GOT THIS!

THE FINISH LINE FOR THE 2025 ACADEMIC YEAR IS JUST AROUND THE CORNER. THE "EXAM BUZZ" IS IN THE AIR, THAT MIX OF NERVES, A LITTLE BIT OF STRESS, AND THE EXCITEMENT OF THE LONG HOLIDAY WAITING JUST ON THE OTHER SIDE. YOU'VE SPENT THE YEAR LEARNING, GROWING, AND TACKLING NEW CHALLENGES. GRADE 10 AND 11 ARE CRUCIAL YEARS; YOU'RE BUILDING THE FOUNDATION FOR YOUR FINAL MATRIC PUSH, AND THAT'S A BIG DEAL.

YOU'VE PUT IN THE HOURS, YOU'VE DONE THE WORK, AND NOW IT'S TIME TO SHOW WHAT YOU KNOW.

MORE THAN A PINK RIBBON: WHY BREAST CANCER AWARENESS MATTERS

October is here, and with it, a wave of pink washes over our communities. From ribbons on lapels to branded products on shelves, this familiar color signals the start of Breast Cancer Awareness Month. But this annual campaign is about far more than a color; it's a critical reminder about the power of early detection in the fight against a disease that is the most commonly diagnosed cancer among women worldwide.

Awareness is our most powerful tool because when breast cancer is caught early, the prognosis is overwhelmingly positive. According to the American Cancer Society, the 5-year relative survival rate for breast cancer that is "localized" (has not spread outside the breast) is 99%. That's a number worth fighting for, and it all starts with one simple concept: knowing your body.

Step 1: Know Your Signs and Symptoms

The first step in early detection is "breast self-awareness" understanding the normal look and feel of your breasts so you can spot changes. While many breast changes are benign (non-cancerous), it's vital to report anything new or unusual to your doctor.

Step 2: Have a Plan for Screening

Being proactive about your breast health involves a combination of self-awareness and regular medical screenings.

Step 3: Know Your Risk Factors

While some risk factors can't be changed, others are within your control.

Your Health is in Your Hands

This October, let the pink ribbon be more than just a symbol. Let it be your reminder to take action. Schedule your check-up, talk to your doctor about your personal screening plan, and encourage the people you love to do the same. Early detection saves lives, and awareness is the first and most critical step.
